

## **Product Obsolescence & Last Time Buy Announcement**

Dear Valuable Customers,

This memo outlines the obsolescence details of the following product:

### **Moog Animatics Integrated Servo Products SmartMotor™ Class 4 Models**

The reason for the obsolescence of this product is: **obsolescence of supplied critical components**

End of life announcement data: **May 01 2022**

Final date for last order of product: **December 31 2022**

Final date for deliveries of product: **December 31 2023**

Date of last repair: **December 31 2025**

Please forward the forecast for future deliveries to your sales account reference not later than **September 30 2022**.

Please note that while every attempt will be made to deliver the quantities requested, factors such as part availability may limit our ability to deliver requested quantities. Any shortfall will be communicated through the sales organisation.

Repairs will be available until the "Date of last Repair" as outlined above. After this point the products listed below will be marked obsolete and Moog will not be able to guarantee their repair.

**Requests coming after the 'Final date for last order of product' cannot be guaranteed** due to difficulties in procuring components and production. We will evaluate the possibility to provide the product after this date and if feasible, a minimum batch and quote will be issued in relation to request.

This announcement pertains to **all SmartMotor™ Class 4 Models, associated sub-assemblies and spares**.

**Model No's: SM1720D-XXX, SM2315D-XXX, SM2316D-XXX, SM2316DT-XXX, SM2337D-XXX, SM2337DT-XXX, SM2330D-XXX, SM2340D-XXX, SM3416D-XXX, SM3416DT-XXX**

Many thanks for your help in this important process.

Kindest Regards,

Ray Walsh  
General Manager, Moog Animatics
